

The Community Visitor Scheme plays an important role in ensuring that care within facilities across South Australia meet specific Standards.

REPORTING AFTER A VISIT

Following a visit and inspection, informal verbal feedback about any issues or matters of concern raised during the visit will be provided to the senior staff at the facility. A formal written report for the Principal Community Visitor (PCV) is also prepared on each visit.

Facilities are expected to make every effort to promptly address any issues raised. If an issue cannot be resolved at the facility level, the PCV may escalate the matter to senior management of the service or an appropriate body for resolution.

If the PCV has reason to believe that an offence has been/is being committed at a facility, the PCV must inform the appropriate authorities immediately.
